VS1

VeriVide Spectroradiometer

Designed to be used in conjunction with VeriVide's Lumos3 Calibration Software. The VS1 is a NIST traceable, fast, and highly accurate miniature spectroradiometer.

Optical Parameters

Measuring Mode	Irradiance
Spectral Range	350....830nm
Optical resolution (FWHM)	4nm
Wavelength resolution	1nm
Digital electronic resolution	16-bit ADC

Technical Information – Measuring ranges/ Accuracies/ Reproducibility

Chromaticity accuracy	± 0.002 x, y (Illuminant A, k=2)
Colour reproducibility	± 0.0005 x, y (Illuminant A)
Illuminance measuring range	1 ... 800 000 lx (Illuminant A), 1 ... 500 000 lx (typical warm white LED)
Illuminance accuracy	± 2.4 % (Illuminant A @ 2000 lx, k=2)
CCT reproducibility	± 20 K (Illuminant A)
Max. wavelength error	± 0.3 nm (HgAr line source)
Polarization error f8	< 1 %

Other Technical Data

Dispersive element	Imaging grating (flat field)
Light receiving element	Back thinned CMOS/ CCD array 2048 pixels
Power supply	USB Hub powered
Dimensions (L x W x H)	186 mm x 105 mm x 50 mm
Weight	1 kg
Operating conditions	Temperature 10 ... 40 °C Humidity < 85 % relative humidity at 35 °C
Accessories (included)	USB cable, carrying case, protection cap, calibration certificate

VeriVide is committed to innovation in colour assessment and quality control. From constructing bespoke standardised viewing environments to developing new lighting products to meet industry standards, improving your quality and productivity is always our priority.

VeriVide is BS EN ISO 9001 : 2015 assessed and registered. All our colour assessment and measurement equipment is made in the UK. Design and specification subject to change without notice.
